3. Live demo
4. Product marketing strategy
5. Market sizing
6. Pricing and financial profile
7. Growth model and go-to-market
8. Competition and defensibility
9. AI Marketing Canvas
10. Risks, ethics, architecture, roadmap

# Executive Summary AT A GLANCE

## THE OPPORTUNITY

**3.5M**

US B2B small businesses actively prospecting — with no tool built for local outbound

**$6.3B**

TAM in SMB outbound spend, growing 12% annually — no one owns local

Every existing tool — Apollo, Mailchimp, SDR agencies — assumes you **already have leads** and **already have copy**. Nobody starts from a location.

→

NEARBYNUDGE

## THE SOLUTION

LOCATION | INDUSTRY | PROMPT

↓

1. Google Maps pulls matching local businesses
2. AI writes a unique email per prospect
3. Campaigns sent automatically ✓

| $6.3B | $1.3B | $7.5M | ~$40 | <1mo | $49–$349 |
|---|---|---|---|---|---|
| TAM | SAM | Year 3 ARR | Blended CAC | Payback | per month |

WHY WE BUILT THIS

# The Problem

**5+**

**hours / week**

Searching Google Maps and copying data into spreadsheets

**<2%**

**reply rate**

Generic template emails get ignored and go straight to trash

**0**

**personalization at scale**

Writing unique emails per prospect doesn't scale manually

**$3K+**

**/month for agencies**

SDR agencies price out small teams entirely

*Teams either send spam and damage their brand — or stay manual and miss growth.*

THE LANDSCAPE

# Existing Solutions

✗

## Manual Search

Monday copying businesses, Tuesday sending the same email to everyone. Doesn't scale.

✗

## Mailchimp / HubSpot

You bring your own leads and write your own copy. No local discovery built in.

✗

## Apollo / Instantly

Built for enterprise SDR teams. No Google Maps integration. Not designed for local.

✗

## SDR Agencies

$3K–$10K/month. Completely out of reach for small teams.

**No product combines local lead discovery with personalized outreach.**

TIMING

# Why This Works Now

### 1 AI Writes Like Humans

AI-generated emails are now indistinguishable from hand-written copy — at SMB price points.

### 2 Google Maps API is Ready

Structured signals — ratings, reviews, website presence, categories — available and ready for personalization.

### 3 No-Code Automation Exists

Tools like n8n let small teams build production-grade pipelines — no engineers needed.

### 4 $6.3B Market, No Owner

SMB outbound spend growing 12%/year. Nobody has claimed the local outreach category yet.

WHO WE SERVE

# Target Customer

### INDUSTRY

Marketing, web design, SEO, cleaning, payment processing, insurance

### COMPANY SIZE

1–50 employees · $100K–$5M revenue

### PRIMARY USER

Founder or Head of Sales — personally runs outbound

### BEHAVIOUR

5+ hrs/week on Google Maps. Tech-comfortable, not technical.

## 3.5M

US B2B small businesses actively prospecting for new clients

> *“We spend half our day just finding who to email.”*

— Marketing agency founder, Arlington VA

GROWTH PATH

# Customer Expansion Path

TIER 1 · MO 1–6

## Digital Agencies & SEO Firms

Already do cold outreach. Tech-comfortable.

~200K firms

TIER 2 · MO 6–18

## Commercial Services

Cleaning, pest control, HVAC, landscaping. High volume, clear ROI.

~1.5M firms

TIER 3 · YEAR 2+

## Financial & SaaS Resellers

Real estate, financial services, freelancers.

~3–5M firms

TIER 4 · YEAR 3+

## White-Label Platform

CRMs, agency platforms, franchise operations.

Revenue multiplier

PRODUCT

# How NearbyNudge Works

## 3 INPUTS

**LOCATION**
City or ZIP code

**INDUSTRY**
Category keyword

**PROMPT**
Your offer + tone + CTA

↓

**Automated pipeline**

### 1 Lead Discovery

Google Maps pulls matching businesses with ratings, websites, and signals

### 2 AI Enrichment

Structures listings into profiles with segmentation tags

### 3 AI Email Generation

Writes a unique email per prospect using their business context

### 4 Automated Send

n8n handles batching, rate limits, and tracking end-to-end

## EXAMPLE INPUT

*"We help dental practices get more patients via Google Ads. Free 15-min audit. Professional tone."*

***Arlington, VA*** ***Dentists***

SAME PROMPT. DIFFERENT EMAILS.

# Personalization in Practice

Arlington, VA · Dentists · "We help dental practices get more patients via Google Ads. Free 15-min audit. Professional tone."

⭐ High-Rated Practice

4.9★ · 280 reviews

## Bright Smiles Dental

SUBJECT

*"Your reviews are impressive. Here's how to turn that into more patients."*

References their strong reputation and suggests amplifying with targeted ads. AI hook: *trust is already built.*

👁 Low-Visibility Practice

3.8★ · 22 reviews

## Arlington Family Dentistry

SUBJECT

*"A quick way to boost visibility for Arlington Family Dentistry."*

Notes limited online presence and offers help appearing when patients search. AI hook: *visibility gap.*

The AI adapts **subject line, hook, value prop, and CTA** based on each business's unique Google Maps signals.

SECTION 3

# Live Demo

1. Enter location, industry, prompt
2. Watch leads populate
3. View personalized emails side by side
4. Send

Switch to live prototype →

CATEGORY CREATION

# Positioning

## EVERY OTHER TOOL ASSUMES YOU ALREADY HAVE LEADS

✗ **Apollo / Instantly**
You bring leads, they help you email

✗ **Mailchimp / HubSpot**
You write copy, they blast it

✗ **SDR Agencies**
$3K–$10K/month, out of reach

**NearbyNudge**

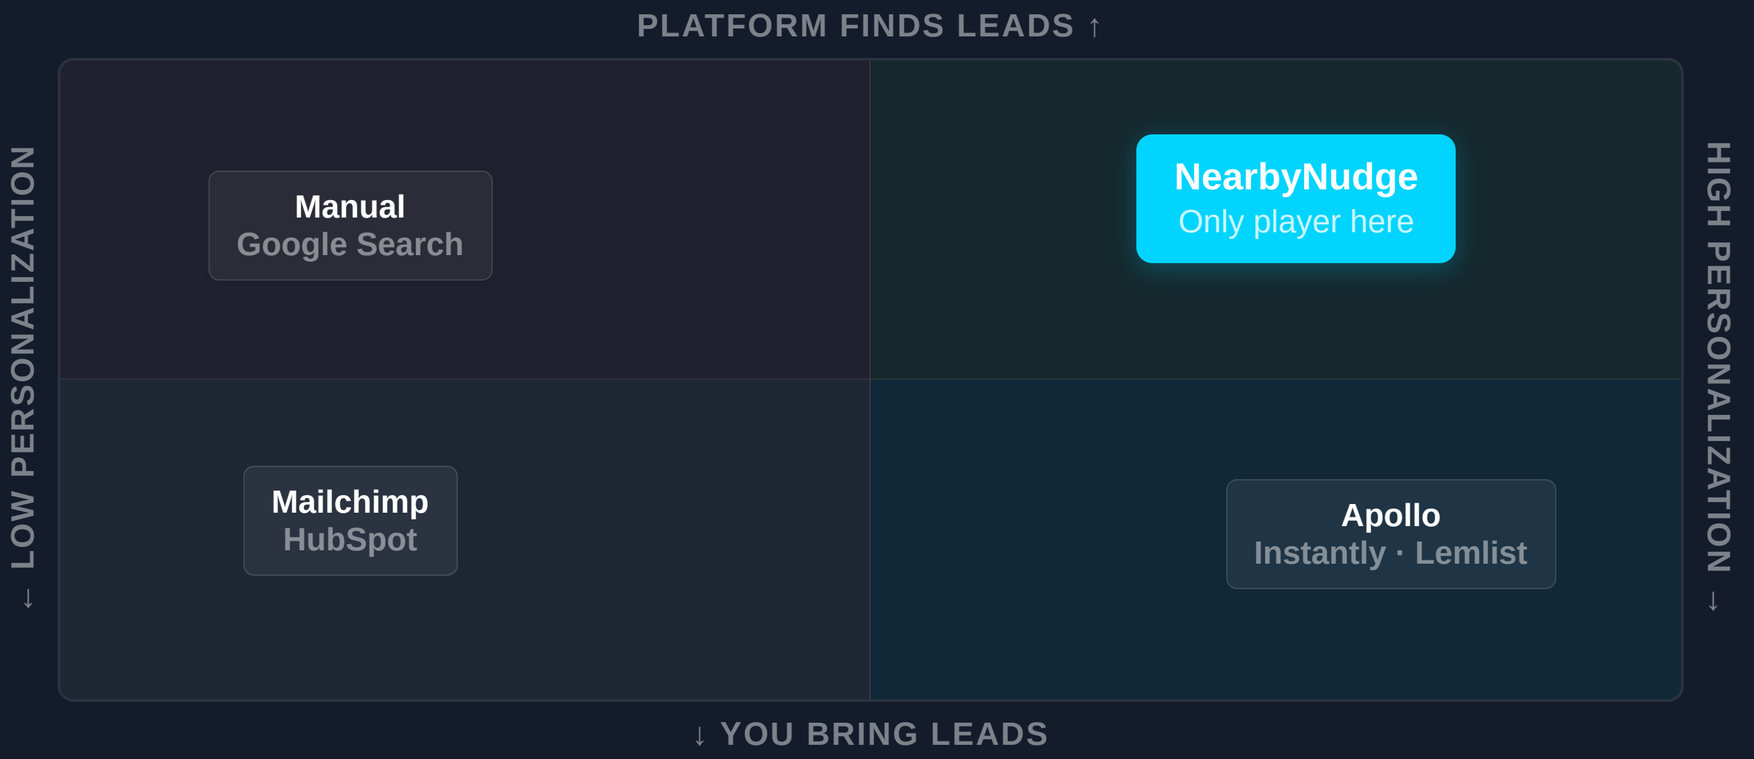

**Location + Industry + Prompt**
**→ Leads Found**
**→ Emails Written**
**→ Sent ✓**

The only platform that discovers leads from Google Maps and generates personalized emails automatically. No lists. No templates. No agency.

**We created the category: *AI-Powered Local Prospecting***

COMPETITIVE LANDSCAPE

# Competitive Map

### Our position

Top-right quadrant — the only tool that finds AND personalizes. Nobody else is here.

### We don't compete

Apollo and Instantly are enterprise SDR tools. We serve a different buyer with a different workflow.

### Category creation

Win in 12–18 months and the category name becomes the brand.

MARKETING STRATEGY

# Messaging by Segment

### FOUNDERS & SOLO OPERATORS

1–5 person business

> *"Stop spending 5 hours finding leads. Start booking meetings."*

LinkedIn Ads | SEO | Product Hunt

### AGENCY OWNERS

5–30 person agency

> *"White-label local outreach for your clients in minutes."*

Agency communities | Partner program

### SALES MANAGERS

2–10 rep teams

> *"Give every rep an AI SDR that knows the neighborhood."*

Google Ads | HubSpot marketplace

GO-TO-MARKET

# Acquisition Channels

### CONTENT & SEO

**40%**

**~$25 CAC**

Blog posts, LinkedIn comparisons, YouTube demos. Captures intent at moment of search.

### PAID ADS

**25%**

**~$75 CAC**

Google Ads on high-intent keywords. LinkedIn targeting founders at small companies.

### REFERRALS

**25%**

**~$15 CAC**

1 month free per referral. Recipients of good outreach become curious users.

### MARKETPLACES

**10%**

**~$30 CAC**

HubSpot, Zapier, Product Hunt. Zero marginal cost per new listing.

| ~$40 | $129/mo | <1 month |
| --- | --- | --- |
| Blended CAC | Avg ARPU | Payback period |

FUNNEL

# Customer Journey

| UNAWARE | PROBLEM-AWARE | SOLUTION-AWARE | PRODUCT-AWARE | CONVERSION | CHAMPION |
|---|---|---|---|---|---|
| Blog post in search results plants the idea | LinkedIn post shows before/after email comparison | Google Ad introduces NearbyNudge | Free tier signup. 25 previews deliver the experience | Usage limit triggers upgrade. Product sold itself | Expands to new locations. Refers peers |

The free tier is not a loss-leader. It's the sales motion.

GROWTH STRATEGY

# Go-to-Market

PHASE 1 · MO 1–3

## Seed & Validate

GW network, DC agencies. 200 free users, 40 paid. Organic only.

PHASE 2 · MO 3–8

## Launch & Scale

Product Hunt. Referral program. HubSpot/Zapier. Google Ads. Goal: **300 paying customers**.

PHASE 3 · MO 8–18

## Expand

White-label with 5 agencies. New verticals. Prompt marketplace. Annual plans. Goal: **1,500 customers**.

PHASE 4 · YEAR 2+

## Platform

API access. Salesforce. UK, Canada, Australia. Goal: **5,000 customers · $7.5M+ ARR**.

MECHANICS

# Growth Model

### Freemium Conversion

Free tier shows 25 email previews. 15–20% upgrade to send. Product sells itself before the paywall.

### Geographic Expansion

Start with dentists in Arlington, add cities and verticals. ARPU grows without new acquisition spend.

### Recipient Virality

Recipients notice quality outreach. "Powered by NearbyNudge" drives inbound from the people we email.

### Prompt Library Network Effect

Users share top-performing templates. More users → better prompts → better emails → more users. Competitors can't replicate without a user base.

MARKET OPPORTUNITY

# Market Sizing — TAM

- 33.2M US small businesses (SBA, 2024)
- ~18% B2B-oriented (Census Bureau) = ~6M
- ~60% actively prospect outbound = ~3.5M
- Avg outbound spend: **$1,800/year**

**TAM = 3.5M × $1,800 = $6.3B**

Market definition: US small business spend on outbound prospecting tools and services. Not broader SMB marketing. Not enterprise sales engagement.

**$6.3B**

Total Addressable Market

Growing 12% annually. Nobody owns local.

MARKET SIZING

# SAM and SOM

THREE SAM FILTERS FROM TAM:

1. ~2M prospect locally (not nationally)
2. ~70% target businesses on Google Maps = **~1.4M**
3. ~60% tech-comfortable for SaaS = **~850K**

**SAM = 850K × $1,548 = $1.3B**

Instantly.ai reached 10K+ users in under 2 years. NearbyNudge has a structural advantage: personalized emails are visible to recipients.

YEAR 1 SOM

**$600K**

ARR · 400 customers · 4 metros · 0.05% SAM

YEAR 3 SOM

**$7.5M**

ARR · 5,000 customers · nationwide · 0.6% SAM

PLANS

# Pricing

### Free

**$0**

25 leads/month · Preview only

**PLG entry point**

See exactly what NearbyNudge produces before spending a dollar.

### Starter

**$49**/mo

150 leads/month

- ✓ AI-personalized emails
- ✓ Basic analytics dashboard
- ✓ Email support

Most Popular

### Growth

**$149**/mo

500 leads/month

- ✓ Follow-up sequences
- ✓ Advanced personalization
- ✓ CRM sync
- ✓ Priority support

### Scale

**$349**/mo

Unlimited leads

- ✓ Multi-location campaigns
- ✓ API access
- ✓ Full CRM integrations
- ✓ Dedicated onboarding

Blended ARPU ~$129/month · Break-even at 60 customers (Month 3–4)

UNIT ECONOMICS

# Financial Profile

**$600K**
Year 1 ARR
400 customers

**$7.5M**
Year 3 ARR
5,000 customers

**~60**
Break-even customers
Month 3–4

**$90K**
Year 1 total costs

## YEAR 1 COST BREAKDOWN

| | |
|---|---|
| Google Maps API | $15K |
| AI / LLM API | $25K |
| Cloud / hosting | $12K |
| Marketing | $30K |
| Misc | $8K |

Revenue scales while costs grow sub-linearly.

FEATURE MATRIX

# Competitive Comparison

| Feature | NearbyNudge | Apollo | Instantly | Manual | SDR Agency |
|---|---|---|---|---|---|
| **Local lead discovery** | ✓ Google Maps | ✗ | ✗ | Manual only | Varies |
| **AI-personalized emails** | ✓ | Limited | Limited | ✗ | ✓ |
| **End-to-end pipeline** | ✓ | Partial | Partial | ✗ | ✓ |
| **Built for SMB / local** | ✓ | ✗ | ✗ | ✓ | Varies |
| **No-code setup** | ✓ | ✓ | ✓ | N/A | N/A |
| **Price** | **$49–$349/mo** | $49–$119 | $30–$97 | Free (time) | $3K–$10K/mo |

MOAT

# Defensibility

## DEFENSIBLE

- **Category creation**
  First to own "local AI outreach." Brand becomes the category name.
- **Data flywheel**
  Reply-rate data by industry, location, and prompt compounds over time.
- **Switching costs**
  Active campaigns, CRM integrations, saved templates create friction.
- **Prompt library network effect**
  Community marketplace grows with users. Can't be copied without a user base.

## NOT DEFENSIBLE (HONEST)

The underlying technology — Google Maps + LLM + email — is replicable. n8n is open source.

**Speed matters more than patents.**

Win the category in **12–18 months**. The data flywheel and brand equity compound daily.

FRAMEWORK

# AI Marketing Canvas

Venkatesan & Lecinski, 2021

| FOUNDATION | EXPERIMENTATION | EXPANSION | TRANSFORMATION | MONETIZATION |
| --- | --- | --- | --- | --- |
| Google Maps signals as structured first-party data. Automated collection via n8n. | A/B test prompts, CTAs, verticals. Track open and reply rates per segment. | Scale winners across 10+ verticals and geographies. Add CRM integrations. | AI automates lead scoring, send timing, prompt optimization from feedback. | Prompt marketplace, white-label platform, premium analytics as new revenue streams. |

NearbyNudge applies AI throughout the full marketing funnel — not just email generation, but discovery, segmentation, optimization, and monetization.

RISK REGISTER

# Risks

| RISK | LIKELIHOOD | IMPACT | MITIGATION |
| --- | --- | --- | --- |
| **Market Adoption** | Medium | High | Free tier proves value first. Target tech-savvy early adopters. |
| **Platform Dependency** | Medium | Medium | Abstraction layer for multiple data sources. Cache results. |
| **Email Deliverability** | Medium | High | SPF/DKIM, rate limiting, opt-out footers, domain warm-up. |
| **Competition** | Low | High | Win category ownership in 12–18 months. Data flywheel compounds daily. |

RESPONSIBLE AI

# Ethics

## Public Data Only

Google Maps public listings. No private data, no purchased lists, no scraping protected sources.

## CAN-SPAM Compliant

Opt-out footers, rate-limited sending, SPF/DKIM authentication on every campaign.

## Human in the Loop

Users preview every email before sending. AI assists — it does not replace human judgment.

ENGINEERING

# Technical Architecture

**Frontend**
**Lovable**
User interface & campaign setup

→

**Orchestration**
**n8n**
Workflow automation & batching

→

**Lead Discovery**
**Google Maps API**
Business data & signals

→

**AI Layer**
**OpenAI**
Email generation & enrichment

→

**Email Delivery**
**SendGrid**
Sending, tracking & deliverability

- **Horizontally scalable** — AI generation is parallelizable per lead

- **Email batched** for optimal deliverability and rate limit compliance

TIMELINE

# Roadmap

NOW → MO 6

## Pilots

200 pilots, 40+ paid. Validate product-market fit with DC agencies and GW network.

MO 6–12

## Scale

400+ customers. ~$50K MRR. Product Hunt launch. HubSpot integration live.

YEAR 2

## Expand

10+ verticals. White-label live. $200K+ MRR. International pilot (UK, Canada).

LONG-TERM

## Platform

The default outreach platform for local B2B service providers worldwide.

N NearbyNudge.AI

# The default outreach platform for local B2B service teams.

We found a real problem. We built a working solution. The economics work.
